

## 4<sup>th</sup> Saturday Walks

### Glen Howe Park and More Hall

Saturday 22<sup>nd</sup> February 2020, 10:30

To make up for last month, I have found a route which is only 4.5 miles, but it does have over 900 foot of climbing – but if that's not enough for you, there's a longer version at about 6 miles, with an extra 100 foot climb. We can also adjust the route if it is very wet or windy as the higher parts of this walk are exposed.

Anybody with energy left at the end might want to explore Glen Howe Park, see [http://striderjohn.org/walking/sat/Stone\\_to\\_Steel-Glen\\_Howe\\_Park.pdf](http://striderjohn.org/walking/sat/Stone_to_Steel-Glen_Howe_Park.pdf) and [http://striderjohn.org/walking/sat/Glen\\_Howe.pdf](http://striderjohn.org/walking/sat/Glen_Howe.pdf)

The route is mainly on well used tracks with some footpaths (the longer route has more road walking).

Starting at the car park at Glen Howe Park, we will walk round Storth Lane then down to More Hall Reservoir before heading up to Rocher Bottom. From here the longer route follows the roads past Swan Cottage while the sort route follows footpaths up Spout House Hill. The routes rejoin at Benteholme Farm before entering Glen Howe from the top.

**The car park is on Storth Lane, Wharncliffe Side S35 0DW. If you are not using satnav, get in touch for directions (because it's hard to find!)**

If you need a lift, get in touch.
